1 to A. Brown, as per order - Apr. 2)
1 to G. H. Redford (Aug. 1850), but pay Conson
Case to Wright acknowledged by him Apr. 30/50

Herbarium of A. H. Curtiss,

Gallegrand Place, near
Jacksonville, Florida., April 15, 1850

Dear Sir -

I forward
to your steamer two cases
containing a mass of
miscellaneous specimens for the
Harvard Herbarium & 19 other places.
15 of these I desire you to
forward at once; they are all
directed except those for M.
Boissier & M. of Munich
where I will thank you to direct.
I enclose also 4 Proscidus which
you can retain & forward when
applied for - Mr. Patterson will
have one extra one for some
Western subscribers and I retain
ten, which I would like to place
in your charge if you have no objection.

... kept at 4.00 or 4.10 I think they
will not turn so dark as they
will here. They are subject to
many dangers here & would be
much safer at Cambridge.
The set of Mexican plants which
I recently rec'd & send to you
is worthless to any one else.

If you have no collections
from that region you may
learn something from it
& then toss it into your crematory.
To avoid such a misunderstanding
as arose last year, I have
paid no freight on the boxes.
Please settle that & deduct all
expenses from the first
remittance you have to make.

I intend to make a trip
to Appalachicola this month
& on my return hope to find
enough ^{hard} to enable me to start

on my next inj. I have
ultimately decided to
Have prepared & sent
Eoda & Elliott for Faas, IV Supplement
Hoping all will be to your
satisfaction I am

Yours truly

W. H. H. H.
